Division of Water Pollution Control ANNUAL FACILITY INSPECTION REPORT

for NPDES Permit for Storm Water Discharges from Separate Storm Sewer Systems (MS4)

This fillable form may be completed online, a copy saved locally, printed and signed before it is submitted to the Compliance Assurance Section at the above address. Complete each section of this report.

Report Period: From March, 2020 _____ To March, 2021 _____

Permit No. ILR40 0200

MS4 OPERATOR INFORMATION: (As it appears on the current permit)

Name: Village of Golf Mailing Address 1: 1 Briar Road

Mailing Address 2: _____ County: Cook

City: Golf State: IL Zip: 60029 Telephone: _____

Contact Person: Michelle Shapiro Email Address: administrator@villageofgolf.us
(Person responsible for Annual Report)

Name(s) of governmental entity(ies) in which MS4 is located: (As it appears on the current permit)

Village of Golf Cook County

THE FOLLOWING ITEMS MUST BE ADDRESSED.

A. Changes to best management practices (check appropriate BMP change(s) and attach information regarding change(s) to BMP and measurable goals.)

- | | | | |
|--|--------------------------|---|--------------------------|
| 1. Public Education and Outreach | <input type="checkbox"/> | 4. Construction Site Runoff Control | <input type="checkbox"/> |
| 2. Public Participation/Involvement | <input type="checkbox"/> | 5. Post-Construction Runoff Control | <input type="checkbox"/> |
| 3. Illicit Discharge Detection & Elimination | <input type="checkbox"/> | 6. Pollution Prevention/Good Housekeeping | <input type="checkbox"/> |

B. Attach the status of compliance with permit conditions, an assessment of the appropriateness of your identified best management practices and progress towards achieving the statutory goal of reducing the discharge of pollutants to the MEP, and your identified measurable goals for each of the minimum control measures.

C. Attach results of information collected and analyzed, including monitoring data, if any during the reporting period.

D. Attach a summary of the storm water activities you plan to undertake during the next reporting cycle (including an implementation schedule.)

E. Attach notice that you are relying on another government entity to satisfy some of your permit obligations (if applicable).

F. Attach a list of construction projects that your entity has paid for during the reporting period.

Any person who knowingly makes a false, fictitious, or fraudulent material statement, orally or in writing, to the Illinois EPA commits a Class 4 felony. A second or subsequent offense after conviction is a Class 3 felony. (415 ILCS 5/44(h))

This MS4 Program during the reporting year 3/2020-3/2021 for this Annual Facility Inspection Report:

- MS4 did not make any changes to Best Management Practices identified in the SMPP or the Notice of Intent submitted February 26, 2021 for Permit No. ILR40 0200.

Part B. MS4 Status of Compliance with Permit Conditions, Year 18

Stormwater Management Activities, Year 18

Please note that IEPA issued a new version of its General NPDES Permit No. ILR40 (Permit), effective on March 1, 2016. On behalf of all MS4s within the county, SMC performs activities related to each of the six minimum control measures which are described in detail in the SMPP. These BMPs, implemented at the county level, make significant strides in achieving the statutory goal of reducing the discharge of pollutants to the MEP as watershed boundaries are not constrained by municipal borders.

- The SMPP for this MS4 Program can be viewed at the following link: <https://www.gha-engineers.com/ms4/documentation/>
- The previous five years of Annual Reports for this MS4 Program can be viewed at the following link: <https://www.gha-engineers.com/ms4/documentation/>

The stormwater management activities that the MS4 performed during Year 18, including your MS4 program BMPs and measurable goals, are described in detail in the revised SMPP. A copy of the annual tracking form is included at the end of Part B of this report.

A. Public Education and Outreach

Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP, including: distribute materials at Village Hall / in Village Newsletter, ensure MS4 documents are posted to website, support MWRD outreach efforts, publicize recycling events, and promote BMPs to residents.

Year 18 MS4 activities:

- The Village continues to distribute an educational flyer to homeowners on ways to improve the quality of storm water runoff. This flyer is available at the Village office.
- The Village continues to implement the BMPs described in its SMPP and to track progress in implementing its stormwater management program.

B. Public Participation/Involvement

Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP, including: participate in stakeholder meetings (watershed groups, Municipal Advisory Council), present the Annual Report to the Village Board at a public meeting, identify/reach out to Environmental Justice areas, publicize Village contact information, log and investigate illicit discharges reported by residents.

Year 18 MS4 activities:

- The Village continues to implement the BMPs described in its SMPP and to track progress in implementing its stormwater management program.

C. Illicit Discharge Detection and Elimination

Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP, including: comply with the WMO, enforce the Village's "Prohibition of Illicit Discharge" Ordinance, perform annual dry-weather inspections of the Village's outfalls, follow illicit

discharge reporting and removal procedures (listed in the SMPP), and track all illicit discharges.

Year 18 MS4 activities:

- The Village performed a dry-weather inspection of its one outfall, located at the Glen View Club golf course. No illicit dischargers were noted or reported.
- The Village continues to implement the BMPs described in its SMPP and to track progress in implementing its stormwater management program.

D. Construction Site Runoff Control

Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP.
- Continue to comply with MWRD's enforcement of the WMO.

Year 18 MS4 activities:

- The Village continues to implement the BMPs described in its SMPP and to track progress in implementing its stormwater management program.
- The Village continues to comply with the MWRD's enforcement of the WMO.

E. Post-Construction Runoff Control

Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP, including: allowing for public submissions of concerns/follow-up with concerns as appropriate, encouraging residents to implement watershed plan recommendations and evaluating the feasibility of implementing watershed plan recommendations (including stream and/or detention basin retrofits) as part of the Village's budgeting process, and periodic inspection of streambanks and detention pond shorelines for erosion.
- Continue to comply with MWRD's enforcement of the WMO.

Year 18 MS4 activities:

- The Village continues to implement the BMPs described in its SMPP and to track progress in implementing its stormwater management program.
- The Village continues to comply with MWRD's enforcement of the WMO.

F. Pollution Prevention/Good Housekeeping

Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP, including: promoting training opportunities by the MWRD, and ensuring the relevant staff are trained in Best Management Practices, including snow and ice removal.

Year 18 MS4 activities:

- Since the snow plow / de-icing contractor attending a de-icing training in 2017, they are listed through 2022 as a "preferred provider" by Lake County SMC.
- The Village continues to implement the BMPs described in its SMPP and to track progress in implementing its stormwater management program.

Stormwater Management Program Assessment, Year 18

The MS4 revised their SMPP to coincide with the March 2016 ILR40 permit. As described in the revised SMPP there are monitoring efforts already underway across the County, refer to Part C of this report for additional information. The Status of Cook County Waters provides insight as to the overall effectiveness of countywide efforts to improve water quality. As an active MS4 within the County, the countywide findings reflect the individual efforts of each MS4. Additionally, the SMPP identified impaired waters based on the July 2016 303(d) list. The inclusion or exclusion of water bodies on the IEPAs 303(d) list, published bi-annually, is a direct reflection of the program's effectiveness.

Annual SMPP Tasks				
BMP	Task	Resp. Party	Date Compl'd	SMPP Section
A.6	Post NOI, SMPP and Annual Report on website	GHA	6/1/2021	3.2.B
B.4	Present Annual Report to Board during open meeting	GHA	5/10/2021	3.3.B
C.1	Update outfall map (new permits, outfall inventory updates)	GHA	N/A	1.4.B, 3.4.D.3.c
C.1	Inspect for "new" outfalls every 5 years	GHA	N/A	1.4.B
C.3, C.7	Pre-screen 100% of outfalls (20% per year or 100% within every 5-yrs)	GHA	4/30/2020	3.4.D.2.a
C.3, C.8	Complete outfall inspection procedure for all outfalls with observed dry weather flow (20% per year or 100% within every 5-yrs). Document.	GHA	4/30/2020	3.4.D.2.b-c
C.3, C.8	Inspect all high priority outfalls	GHA	4/30/2020	3.4.D.2.b
C.6	Review the results of the screening program. Include assessment in Part B of the Annual Report.	GHA	Ongoing	4.2
C.7	Inspect and clean catch basins, Document.	Contractor	As-needed	3.7.A.2.b
E.6, E.7	Consider public implementation of watershed plan recommendations as part of fiscal planning/budgeting	Village	Ongoing	3.6.D, 3.6.E
E.6	Inspect receiving water streambanks for erosion and flowlines for sediment accumulation (in concert with outfall inspection and pre-screening efforts)	GHA	4/30/2020	3.6.E.1
F.2	Inspect and recondition spreaders and spinners. Install these items onto snow removal vehicles, performing test operations, calibrating distribution rates per National Salt Institution Application Guidelines, and conducting better driver training.	Contractor	Ongoing	3.7.A.4.a
A-F	Review Program, include finding in annual report	GHA	5/27/2020	4.2
B.6	Evaluate SWPP. Major highlights and deficiencies should be noted annually, and the plan revised accordingly on a minimum 5-yr basis, or as necessary.	GHA	Ongoing	4.2.C
	Comply with monitoring program commitments, describe in Annual Report	Village	Ongoing	4.1

MS4 Name: Village of Golf Year: Permit Year 18 (March 2020- March 2021)

1. Catch basins cleaned*: _____ Amount of material removed : _____
2. Catch basins repaired*: _____
3. Outfalls inspected*: 1 outfall inspected (ID #01)
4. Outfalls repaired*: _____
5. Miles of roadway cleaned: _____ Amount of material removed: _____
6. New Village projects >1 acre (name, location, size): N/A
7. Quantities of salt, brine, beet juice and sand used:
 - a. Salt: Approx. 1.5 tons per application
 - b. Brine: _____
 - c. Beet Juice: _____
 - d. Sand: _____
8. Employee training: (employee name, date, location and subject matter)
De-Icing Workshop attended in 2017 by contractor, Wayne Endre – certification lasts 5 years
9. Distribution of paper materials: (title of document, date and number distributed)
 - a. Homeowner BMP Handout at Village Hall – available to take away
 - b. _____
10. Workshops/watershed planning and stakeholder meetings: (date, location, subject matter and who attended)
Attendance North Branch Chicago River Watershed (NBWW) Meetings – GHA
11. Illicit discharge complaints (phone, email, walk in, mail):

Newsletter, handouts at meetings,
flyers, handouts at Village offices.

*use ID # from outfall inventory

Part C. MS4 Information and Data Collection Results, Year 18

Annual Monitoring and Data Collection, Year 18

Information and data that the MS4 collected to meet the monitoring requirement of the version of IEPA's General NPDES Permit No. ILR40 that applied to the reporting period are summarized below.

The MS4 revised their SMPP to coincide with the March 2016 ILR40 permit. As described in the revised SMPP there are monitoring efforts already underway across the County. The MS4 is located in the North Branch Chicago River Watershed and *may consider joining the North Branch Watershed Workgroup (NBWW) in Year 18 if it is not cost-prohibitive*. The following is a brief summary of the efforts described in more detail in the SMPP.

- The North Branch Watershed Workgroup (NBWW) monitors water quality in the North Branch Chicago River and tributaries to accurately identify the quality of the river ecosystems as well as stressors associated with non-attainment of water quality standards and designated uses. Monitoring data will allow for a greater understanding of the water quality impairments, identify priority restoration activities, and track water quality improvements. The Workgroup is committed to an approach for attaining water quality standards that focuses on stakeholder involvement, monitoring, and locally led decision-making based on sound science. Comprehensive baseline monitoring has been completed at all 25 sites for water column chemistry and sampled 14 sites for fish, habitat, macroinvertebrate, and sediment chemistry. Data sondes were deployed at 7 sites in the Middle and West Forks for collection of dissolved oxygen (D.O), pH, temperature, and specific conductance. The NBWW will continue to support the North Branch Watershed Planning Committee and the North Branch Watershed Consortium through regular discussion at general meetings. MS4 communities that are currently NBWW members for the reporting year are located at (URL: www.nbwwil.org). ***See above - the Village is not currently a member.**
- A portion of the community is located outside of these monitoring efforts. One location, the Villages outfall, was selected to perform supplemental visual water quality monitoring. The data collected from this water quality sampling location will be compared with subsequent years sampling to assist in determining if the BMPs and stormwater management program are appropriate.

Part D. MS4 Summary of Year 19 Stormwater Activities

The table below indicates the stormwater management activities that the MS4 plans to undertake during Year 19. Additional information about the stormwater management activities that the MS4 will perform is provided in the section following the table.

Note: “X” indicates BMPs that will be implemented during Year 19
✓ indicates BMPs that were changed during Year 19

	F.6 Other Municipal Operations Controls

Stormwater Management Activities, Year 19

During Year 19, the MS4 plans to continue to support and supplement MWRD efforts, as described in detail in the MS4's SMPP and in brief below.

The MS4's NPDES Program can be viewed at <https://www.gha-engineers.com/ms4/documentation/>

A. Public Education and Outreach

The Village utilizes a variety of methods to educate and provide outreach to the public about the importance of managing pollutants that potentially could enter the stormwater system. The Village's Public Education and Outreach program includes: the distribution of educational material via take-away racks, municipal newsletters, and on the Village website.

Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP.

B. Public Participation/Involvement

The Village utilizes a variety of methods to allow input from citizens during the development and implementation of the SMPP. The Village's Public Participation/Involvement program includes: maintaining a process for receiving and processing citizen input/complaints; attending and publicizing stakeholder meetings, identification of environmental justice areas, and presenting program information at a public meeting at least once annually.

Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP.

C. Illicit Discharge Detection and Elimination

The Village will conduct activities toward the identification and removal of direct connections of pollutants into the storm water management systems (including wetlands and receiving waters). The program includes the following primary components.

- An outfall map showing the locations of outfalls and the names and locations of all waters that receive discharges from those outfalls;
- An ordinance that prohibits all non-storm water discharges into the storm sewer system and provides the authority for appropriate enforcement procedures and actions;
- A plan to detect and address all non-stormwater discharges, into the storm sewer system;
- Visual water quality monitoring at 1 location;
- Annual inspection of all High Priority Outfalls (1 outfall).

Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP.

D. Construction Site Runoff Control

Cook County has adopted a countywide Watershed Management Ordinance (WMO) that establishes the minimum stormwater management requirements for development in Cook County. The WMO establishes countywide standards for runoff maintenance, detention sites, soil erosion and sediment control, inspections, water quality, wetlands and floodplains. The WMO, which is administered and enforced within the community by the MWRD, establishes standards for construction site runoff control.

Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP.
- Assist MWRD in ensuring that all applicable developments are in compliance with the WMO.

E. Post-Construction Runoff Control

As described above, the countywide WMO establishes the minimum stormwater management requirements for development in Cook County. BMP standards are incorporated into the WMO to implement stormwater management strategies that minimize increases in stormwater runoff rates, volumes, and pollutant loads from development sites. The SMPP also includes support of Watershed Plan recommendations and inspection procedures for streambanks and shorelines, streambeds, and detention/retention ponds.

Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP.
- Assist MWRD in ensuring that all applicable developments are in compliance with the WMO.

F. Pollution Prevention/Good Housekeeping

The Village is committed to implementing the Pollution Prevention/Good Housekeeping component of its SMPP. The Village is responsible for the care and upkeep of the general facilities, municipal roads, its general facilities and associated maintenance yards. The Village's Pollution Prevention/Good Housekeeping program includes: the evaluation and improvement of municipal policies and procedures to reduce the discharge of pollutants from municipal activities and operations.

Measurable Goal(s):

- Implement BMPs and track progress of BMP implementation, as described in the SMPP.
